## PREFACE

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1c (DIA). The photographic analysis for this particular report was performed by the Production Center 1P1c.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training areas or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

## SUMMARY

A 70-acre military installation is on the northwest edge of Kolomyia along a secondary road one block east of the Kolomyia-Dobrokov road (Figure 1). There is no rail or air service directly to the installation, but the Kolomyia Airfield is 8 km east and the Kolomyia-Chernovtsy railroad passes 3 km east.

Visible within the installation are three multistory administration buildings, 10 barracks, three storage buildings, and four small support buildings (Figures 2 and 3). At the north end of the installation is a road-served

560- by 120-foot possible earth-mounded bunker, possibly vented. Five small support buildings are in the immediate vicinity and a probable gatehouse is at the entrance to the bunker. An athletic field is near the main entrance to the south end of the installation. East of the installation is a driver-training area with various road patterns and a small building. A motor vehicle park containing two 480- by 50-foot buildings and six small utility buildings is just south of the bunker.

## DESCRIPTION OF INSTALLATION

**Railroad Service**

The installation has direct access to the Kolomyia-Chernovtsy railroad 3 km east.

**Road Service**

The installation is located along a secondary road one block east of the main Kolomyia-Dobrokov road.

**Aircraft Landing Strip**

The Kolomyia Airfield is 8 km east of the installation.

**Administrative and Troop Housing Area**

Area D (Figure 3) contains three multistory administration buildings, and 10 barracks.

**General Storage Areas**

Area E1 contains two large warehouses.

Area E2 contains one long, narrow storage building and two small support buildings.

**Ammunition Storage Area**

Area F contains one 560- by 120-foot possible ammunition storage bunker, earth mounded, one 180- by 50-foot unidentified building parallel to south end of bunker, one 40- by 30-foot probable gatehouse at entrance to bunker, and three small 50- by 50-foot support buildings along road east of bunker.

**Equipment Storage/Maintenance Area**

Area J contains two 480- by 50-foot motor vehicle sheds and six small 60- by 40-foot utility buildings.

**Athletic Field**

Area K is a U-shaped track enclosing an athletic field and a field house.

**Driver Training Area**

A figure-8 road pattern and other winding road patterns probably used for driver training are located in Area M. A small building and one shed are located in the area.
